General Report

For the Half Year Ending 31st December, 1914.

Owing to the introduction, by the Ministry of Communications, of one standard system of railway accounts, applicable to all the Government Railways, in place of the many and varied systems hitherto in use by them, it has become necessary to close the accounts of this Railway as at 31st December, 1914. The new plan will come into force on 1st January, 1915.

The Directors, therefore, submit the following report of the working of the Peking-Mukden Railway during the half year ending 31st December, 1914.

	For 6 months to	31st December.

- Mileage.—No increase in mileage has been made during the half year. The mileage open to traffic is 605.76 miles
- Loans.—On 1st August, 1914, the Tenth Drawing of the Chinese Government Railways 5% Gold Loan of 1899 amounting to £57,500 was paid off thus reducing the amount outstanding to £1,725,000.

 The amortisation of the Gold Loan from the South Manchuria Railway has also been duly met.
- Exchange.—Remittances to London to meet the Loan service were made at the average rate of 2/538 per Tientsin Tael.
- Change of Rails.—Arrangements have been made to relay the section between Kuyeh and Tongho with 85-1b rails. Over this section a very heavy coal traffic is carried.

AUDITOR'S CERTIFICATE

The accounts for the half year ended 31st December, 1914, as stated, contain, in my opinion, a full and true statement of the financial condition of the Railway, and the revenue has, in my judgment, been charged with all expenses which ought to be paid thereout. The interest and redemption of the Loans during the half year have been fully met.

Tientsin, 18th March, 1915.

A. F. Algie,
Auditor

ENGINEER-IN-CHIEF'S CERTIFICATE.

I hereby certify that the Permanent Way, Bridges, Stations and other Buildings have been maintained in good order during the half Year ending 31st December, 1914, but I desire to draw attention to the section between Kuyeh and Shankaikuan. On this section the rails are 23 years old and require changing; they are rapidly becoming dangerous.

Tientsin, 15th March, 1915.

D. Poyntz Ricketts, Engineer-in-Chief & General Manager

LOCOMOTIVE SUPERINTENDENT'S CERTIFICATE

I hereby certify that the Plant, Locomotives, Coaches, Cars, Wagons, Machinery and Tools have been maintained in good order and repair during the six months ending 31st December, 1914.
